About the Author

When JEAN MARIE PRINCE was only two days old, she was abandoned in a bathroom in Seoul, Korea. She believes it was only through the grace of God that she was found and taken into an orphanage. She lived there for her first five years, until she was adopted by an American family.

God has blessed Jean Marie with the ability to write inspirational poetry and lyrics. *"Inspired Blessings"* was written as a result of God's work in her life. God willing, you will see the purpose He has given her, and help her continue to inspire the world with love, faith and hope!
